PART II: Pair up! Swap sheets! Add Your Name!

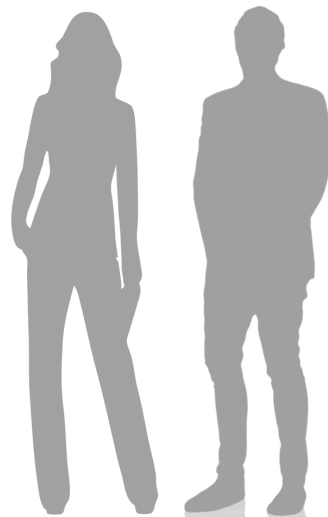

Interview your partner about their coffee shop meeting. Use the questions below as starters & take notes here. Remember, ask lots of WHY questions to learn more!

What class is your former student discussing?

What about the course in particular was impactful to the student?

What role did this course play for the student in college and after college?

Notes:

1

Five years after taking your course, your former student meets you for coffee. What would you want them to share with you about their experiences with you and in your course(s)?

2

Tell us more about your former student.
These do NOT need to be details about a particular student.

What did they major in?

What were they like in the classroom (e.g., educational background, study style, preference towards groupwork)?

What other activities were they involved in?

What is their current occupation?
