

### Overview

Solstice wireless display sharing provides a way to send images from laptops, phones, and tablets to a projector or monitor without needing to connect any cables. It is typically used to give a presentation from anywhere in the room. It can also be used as a collaborative or discussion tool by quickly switching between different users images or putting up multiple images from multiple users simultaneously.

Solstice's on-screen instructions are intended to make use seamless for first-time users. First-time users can be directed to the instructions on the display to get started. Below is more detailed instruction.

### Using a Laptop

- Connect your laptop to RUWireless Secure.
- The first time you connect wirelessly, you will need to download a free application. To do so, connect your laptop to the Internet, open your web browser, and visit the web address displayed on the monitor. Click on the **Get App & Join!** button to download the app.
- After the download finishes, open the "**SolsticeClient**" App.
- Enter your name and press continue. This name will be used to indicate to the class who is presenting and will be saved for future classes.
- Select the **Enter IP** tab, enter the IP address displayed on the monitor, and press Go.
- Enter the Screen Key displayed on the monitor and press Ok.
- There are various sharing options:
  - Press **Desktop** to send everything on your computer screen to the monitor. You may share audio from your computer by turning **Desktop Audio** to **On**. If the volume on the RRC is not raised, return to the Controller and raise the slider.
  - Press **App Window** to select an open window on your computer to send to the monitor.
  - Select **Media File** to select a file on your computer to display.
  - Use the **Stop Sharing All** button to end sharing.
- Users may share multiple images from the screen simultaneously. At the same time, multiple users can share images at once. To relocate, remove, or add back in shared images, click on Layout in the left side bar. If multiple windows are shared, click and drag on an image to relocate it. To remove an image, drag it to the left side

bar. Add it back in by dragging it back on to the main area. In the bottom bar, right click on a user to access the ability to show their images, hide their images, stack their images, or delete them.

### Using a Phone or Tablet

- Connect your phone or tablet to RUWireless Secure.
- The first time you connect wirelessly, you will need to download a free application. To do so, connect your device to the Internet. Open your app store and download **Solstice Client**.
- Open the **SolsticeClient** App.
- Enter your name and press continue. This name will be used to indicate to the class who is presenting and will be saved for future classes.
- Select the **Enter IP** tab, enter the IP address displayed on the monitor, and press **Go**.
- Enter the Screen Key displayed on the monitor and press **Ok**.
- Use the various sharing options to send images to the display:
- Users may share multiple images from the screen simultaneously. At the same time, multiple users can share images at once. To relocate, remove, or add back in shared images, click on the control tab above your user icon, indicated by four squares. If multiple windows are shared, click and drag on an image to relocate it. To remove an image, drag it to the left side bar. Add it back in by dragging it back on to the main area. In the bottom bar, click on a user to access the ability to show their images, hide their images, stack their images, or delete them.

## Using Solstice with the In-Room Computer

- After Solstice is set as the display source, the center tab in Rutgers Room Control will show instructions and a **Launch Solstice** button. Press the **Launch Solstice** button.
- The Solstice client app will open.
- Enter your name and press continue. This name will be used to indicate to the class who is presenting and will be saved for future classes.
- Select the **Enter IP** tab, enter the IP address displayed on the monitor, and press Go.
- Enter the Screen Key displayed on the monitor and press **Ok**.
- There are various sharing options:
  - Press **Desktop** to send everything on your computer screen to the monitor. You may share audio from your computer by turning **Desktop Audio** to **On**. If the volume on the RRC is not raised, return to the Controller and raise the slider.
  - Press **App Window** to select an open window on your computer to send to the monitor.
  - Select **Media File** to select a file on your computer to display.
  - Use the **Stop Sharing All** button to end sharing.
- Users may share multiple images from the screen simultaneously. At the same time, multiple users can share images at once. To relocate, remove, or add back in shared images, click on Control in the left side bar. If multiple windows are shared, click and drag on an image to relocate it. To remove an image, drag it to the left side bar. Add it back in by dragging it back on to the main area. In the bottom bar, right click on a user to access the ability to show their images, hide their images, stack their images, or delete them.
